## Wedding Price Guide

Okay, while we can't help you calm down your soon-to-be in-laws, we can help you figure out how to handle the wedding photography. It's simple: **we'll handle it for you.** As experienced wedding photographers, we know what it's like to plan and have a wedding. If you're looking for **friendly photographers** to capture your day with style, photographers who actually make you feel less stressed out, then **we're the ones for you.**

We've got a game plan when it comes to photographing your special day. Every wedding photography package comes with the two of us (at your service!), and that means the bride and the groom each have their own photographer. **We're your personal paparazzi!** There aren't many photo duos around, but when you book FinestraPhoto for your wedding, you're getting two artists/photojournalists dedicated to your day.

We use both film and digital formats to produce the highest quality images at the most affordable prices. FinestraPhoto offers wedding photography services to fit your personal taste and budget. See the second page of this guide to learn all the different ways you can customize your wedding photography package!

**To book an appointment, contact us today.** We're happy to set up a time for a consultation to help you figure out what you're looking for in wedding photography. Oh, and if you need folks to help you pick out wedding cake, we're good at taste testing, too!
